DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-2 & 7-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Kobos et al. Kobos (figures 1-6) teaches of an escutcheon (fig. 4) for an appliance door assembly as structurally depicted in Exhibit A [claims 1-2] and Exhibit B [claims 7-9].

Allowable Subject Matter

3. Pending further review and consideration [see below], Claims 4-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection. It is noted that some clarification may be in order to definitively distinguish aspects of the "retaining slot" as set forth in claim 1. As noted on page 9 of the specification - see [0031] to [0033], the slot is identified as reference no. 232 and defined in relation to the "lead-in flange 230 and lip 228". The slot is later defined in relation to "rib 212 and escutcheon lip". As such, the recitation "a plurality of formations depending from the lower edge and defining a retaining slot" [claim 1] is interpreted in view of the flange and lip structures. It is

Art Unit: 3637

noted that the flange may be reinforced via the ribs, but the "slot" is not necessarily defined solely by the "ribs" in question. As such, it is deemed that the "formations" must either constitute the flange and lip or the combination of the flange, ribs and lip. The examiner has taken the position that the combination of the flange, ribs and lip define the "formations" [wherein the "formations" comprise positioning ribs – however, it is not clear if the ribs constitute a portion of the formations [as interpreted by the examiner] **or** are the formations]. Clarification concerning applicant's intent is requested in view of the potentially allowable subject matter.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Art Unit: 3637

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James O. Hansen whose telephone number is 703-305-7414. The examiner can normally be reached on Mon.-Fri. 8-4pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on 703-308-2486. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
